ABOUT US

At **Ital Design Group International**, we deliver comprehensive turnkey interior solutions for hotels, resorts, branded residences, casinos, luxury residential developments, and commercial environments. From concept development and design to procurement, manufacturing, and installation, we provide seamless project execution tailored to the unique requirements of each hospitality project.

Through our collaboration with **ESTIA**, a leading hospitality specialist with more than 30 years of international experience, we combine global expertise with exceptional project support. Together, we serve luxury hotels, resorts, boutique properties, villas, restaurants, and hospitality developments worldwide, offering customized furniture, fixtures, and interior solutions that enhance guest experiences and elevate property value.

Driven by craftsmanship, premium materials, innovative design, and meticulous attention to detail, our team creates sophisticated interiors that balance functionality, comfort, and timeless elegance. Whether delivering a boutique hotel, luxury resort, or large-scale hospitality development, we are committed to transforming visionary concepts into exceptional guest environments.

Myrina Beach Resort is a contemporary beachfront destination that reflects the importance of thoughtful hospitality design and carefully curated guest experiences. The project highlights our expertise in hospitality interiors, public spaces, and FF&E solutions, where functionality, durability, and aesthetics come together to create welcoming and memorable environments.

From reception and lounge areas to guest-focused amenities, each element reflects a commitment to quality, comfort, and operational performance. The project demonstrates our ability to support hospitality developments through tailored interior solutions that enhance guest satisfaction and long-term value.

The lobby at Myrina Beach Resort was designed to create a welcoming first impression through a balance of simplicity, comfort, and refined detail. Natural tones, soft lighting, and custom millwork come together to create an elegant arrival experience that feels both relaxed and elevated.

Every element, from the lounge seating to the decorative shelving and lighting features, supports the hotel's coastal identity while maintaining durability and functionality for daily hospitality use. The result is a warm and sophisticated public space that enhances the guest experience from the moment they arrive.

LOBBY

ESTIA BAR

The guest rooms and suites at Myrina Beach Resort were designed to feel calm, comfortable, and connected to the resort’s beachfront setting. Soft neutral tones, durable finishes, and custom furnishings create a fresh and welcoming atmosphere throughout the property.

Each room balances guest comfort with practical hotel use, combining simple design, functionality, and long-term performance for a relaxed resort experience.

JUNIOR SUITE

W HOTELS

W Fort Lauderdale is a luxury beachfront hotel in South Florida, part of Marriott's W Hotels brand. Located directly along the Atlantic coastline, the property is designed around bold style, oceanfront energy, and a modern resort experience.

The interiors reflect the W brand's lifestyle-focused identity, creating spaces that feel social, contemporary, and visually memorable. From the lobby and lounge areas to guest rooms, dining venues, terraces, and pool spaces, each area supports a seamless guest experience from day to night.

Our scope focused on delivering hospitality interior solutions that balance design impact with comfort, durability, and practical hotel use. The result is a dynamic coastal environment that enhances the guest journey while supporting the property's luxury positioning.

ELEGANT LOBBY LOUNGE

W HOTELS

The guest rooms at W Fort Lauderdale were designed to bring together comfort, functionality, and the bold character of Marriott’s W Hotels brand. Clean lines, modern finishes, and custom furnishings create a polished coastal atmosphere that feels relaxed, contemporary, and connected to the property’s oceanfront setting. The design supports a luxury guest experience while keeping the rooms practical, durable, and easy to use.

Each room was planned with attention to layout, material selection, built-in elements, and furniture details that work together as one cohesive interior package. The result is a modern guest room experience that reflects the energy of the hotel while giving guests a refined, comfortable, and memorable place to unwind.

GUEST ROOMS

The bathrooms at W Fort Lauderdale carry the same bold, modern character as the guest rooms, with a cleaner and more refined expression. Sleek surfaces, contemporary fixtures, and carefully coordinated finishes create a bright and polished environment that feels fresh, elevated, and easy for guests to enjoy.

The design brings a sense of calm into the room experience, adding a spa-like quality without losing the energetic identity of Marriott's W Hotels brand. Every detail was selected to support a cohesive luxury interior, from the vanity and storage elements to the finishes that frame the space.

TERRACE SEATING

W HOTELS

The dining areas at W Fort Lauderdale were designed to support the hotel’s social and energetic atmosphere while creating a comfortable setting for guests throughout the day. The spaces combine strong design elements, coordinated finishes, and practical layouts that allow dining, gathering, and movement to feel seamless.

Rather than acting only as food and beverage areas, these spaces contribute to the overall guest experience and help define the lifestyle identity of the property. The design supports both visual impact and everyday hospitality operations, creating dining environments that feel active, polished, and connected to the beachfront setting.

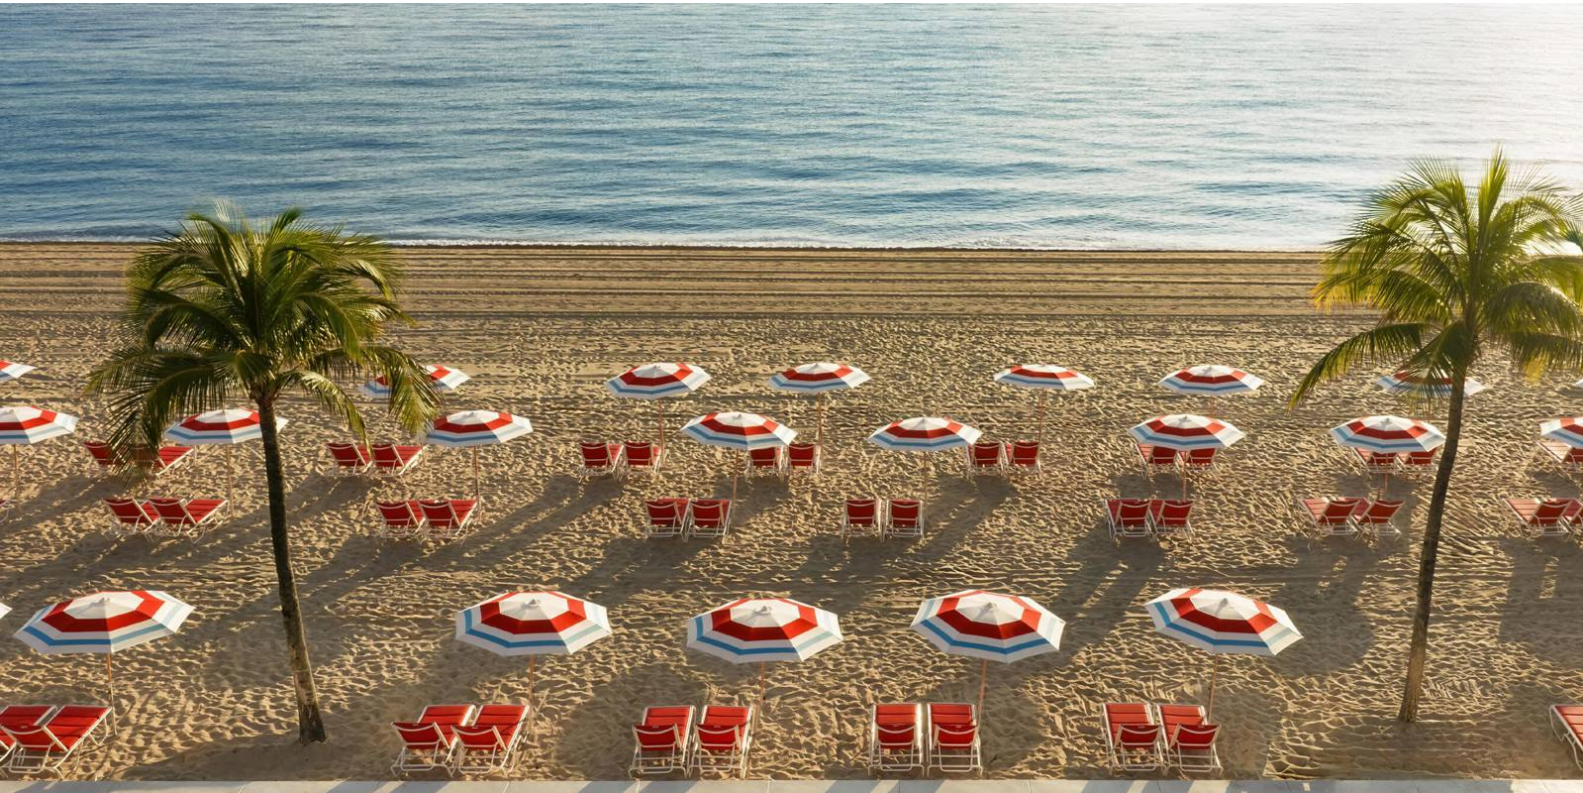

EL VEZ RESTAURANT

W HOTELS

The beach and pool areas at W Fort Lauderdale bring the hotel's resort lifestyle directly into its oceanfront setting. From poolside seating to cabana-style spaces and beachfront lounging, the design creates different areas for guests to relax, socialize, and enjoy the coastal atmosphere.

Each outdoor space was planned to feel vibrant, comfortable, and connected to the W brand, while supporting the natural flow between the beach, pool deck, and lounge areas.

ROOFTOP POOL

ME

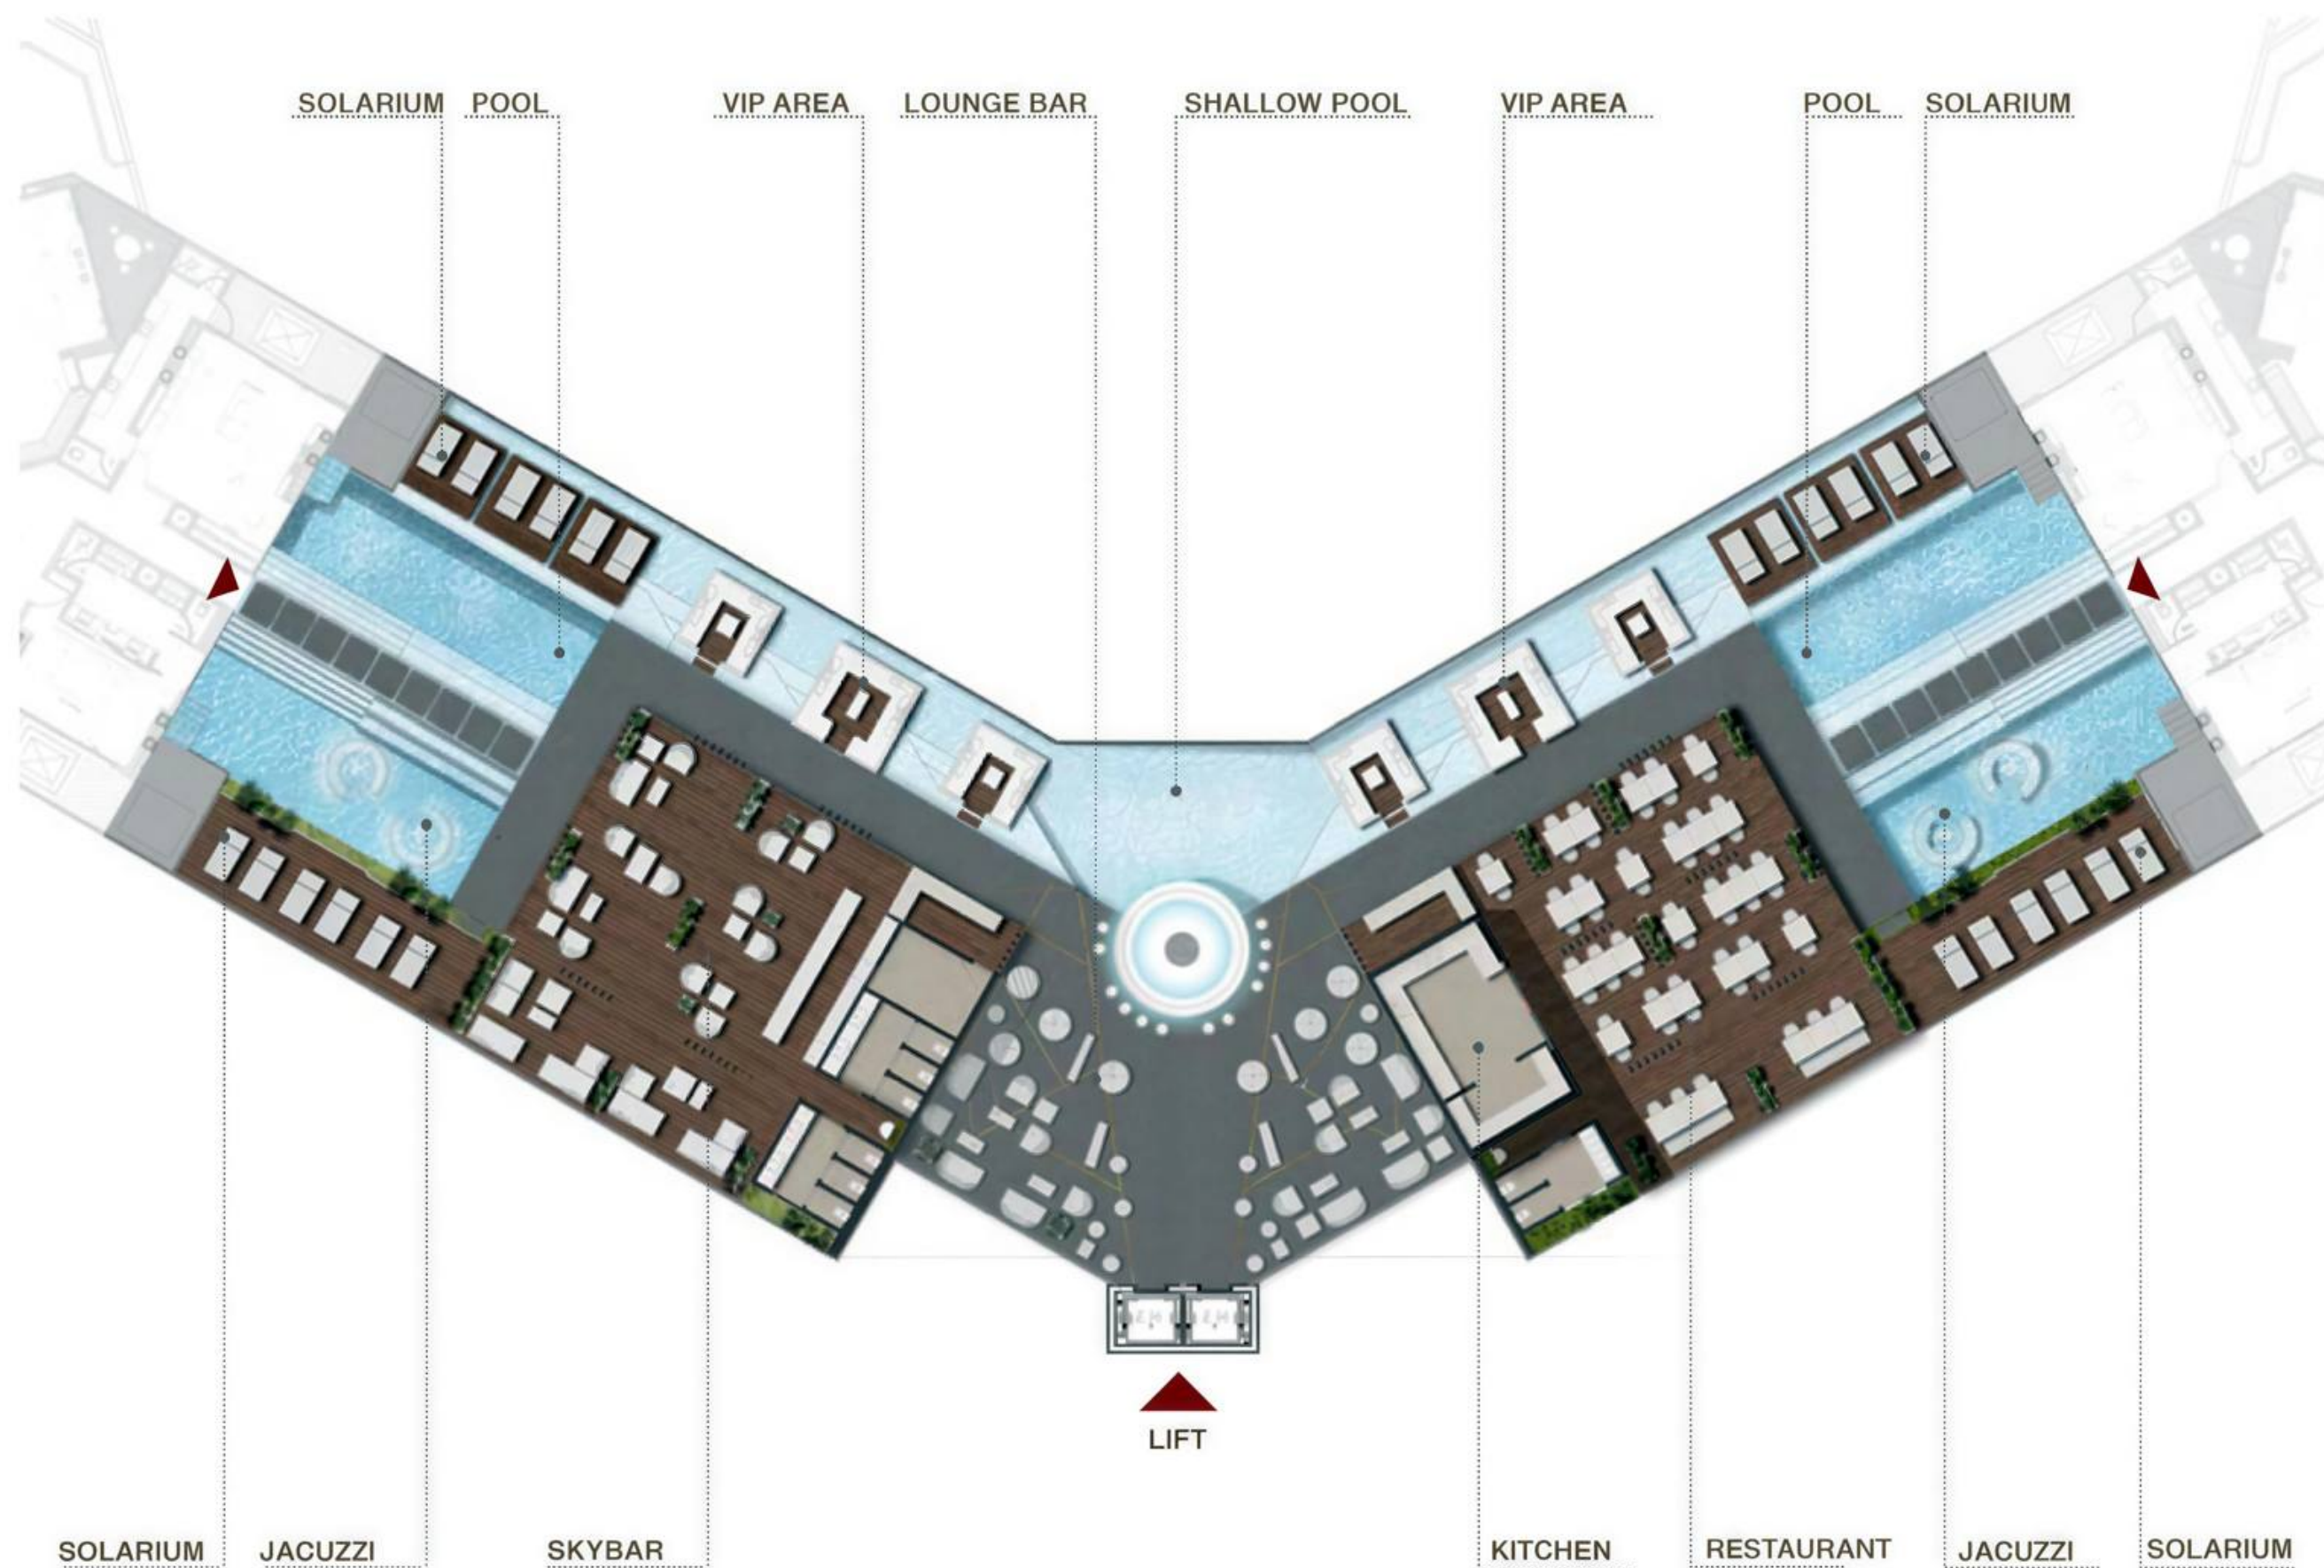

BY MELIÀ

ME by Melià embodies a bold and contemporary hospitality experience where luxury, lifestyle, and design converge. Developed as a destination for modern travelers, the project features sophisticated social spaces, elevated dining experiences, and distinctive architectural elements that create a vibrant atmosphere from day to night.

In collaboration with leading hospitality partners, Ital Design Group and ESTIA delivered custom interior solutions that balance functionality, durability, and visual impact. From signature lounge areas and rooftop entertainment spaces to bespoke furnishings and carefully curated finishes, every detail was designed to enhance the guest journey while reflecting the brand's dynamic identity.

The result is an immersive hospitality environment that combines innovation, comfort, and timeless design, creating memorable experiences for guests and lasting value for the property.

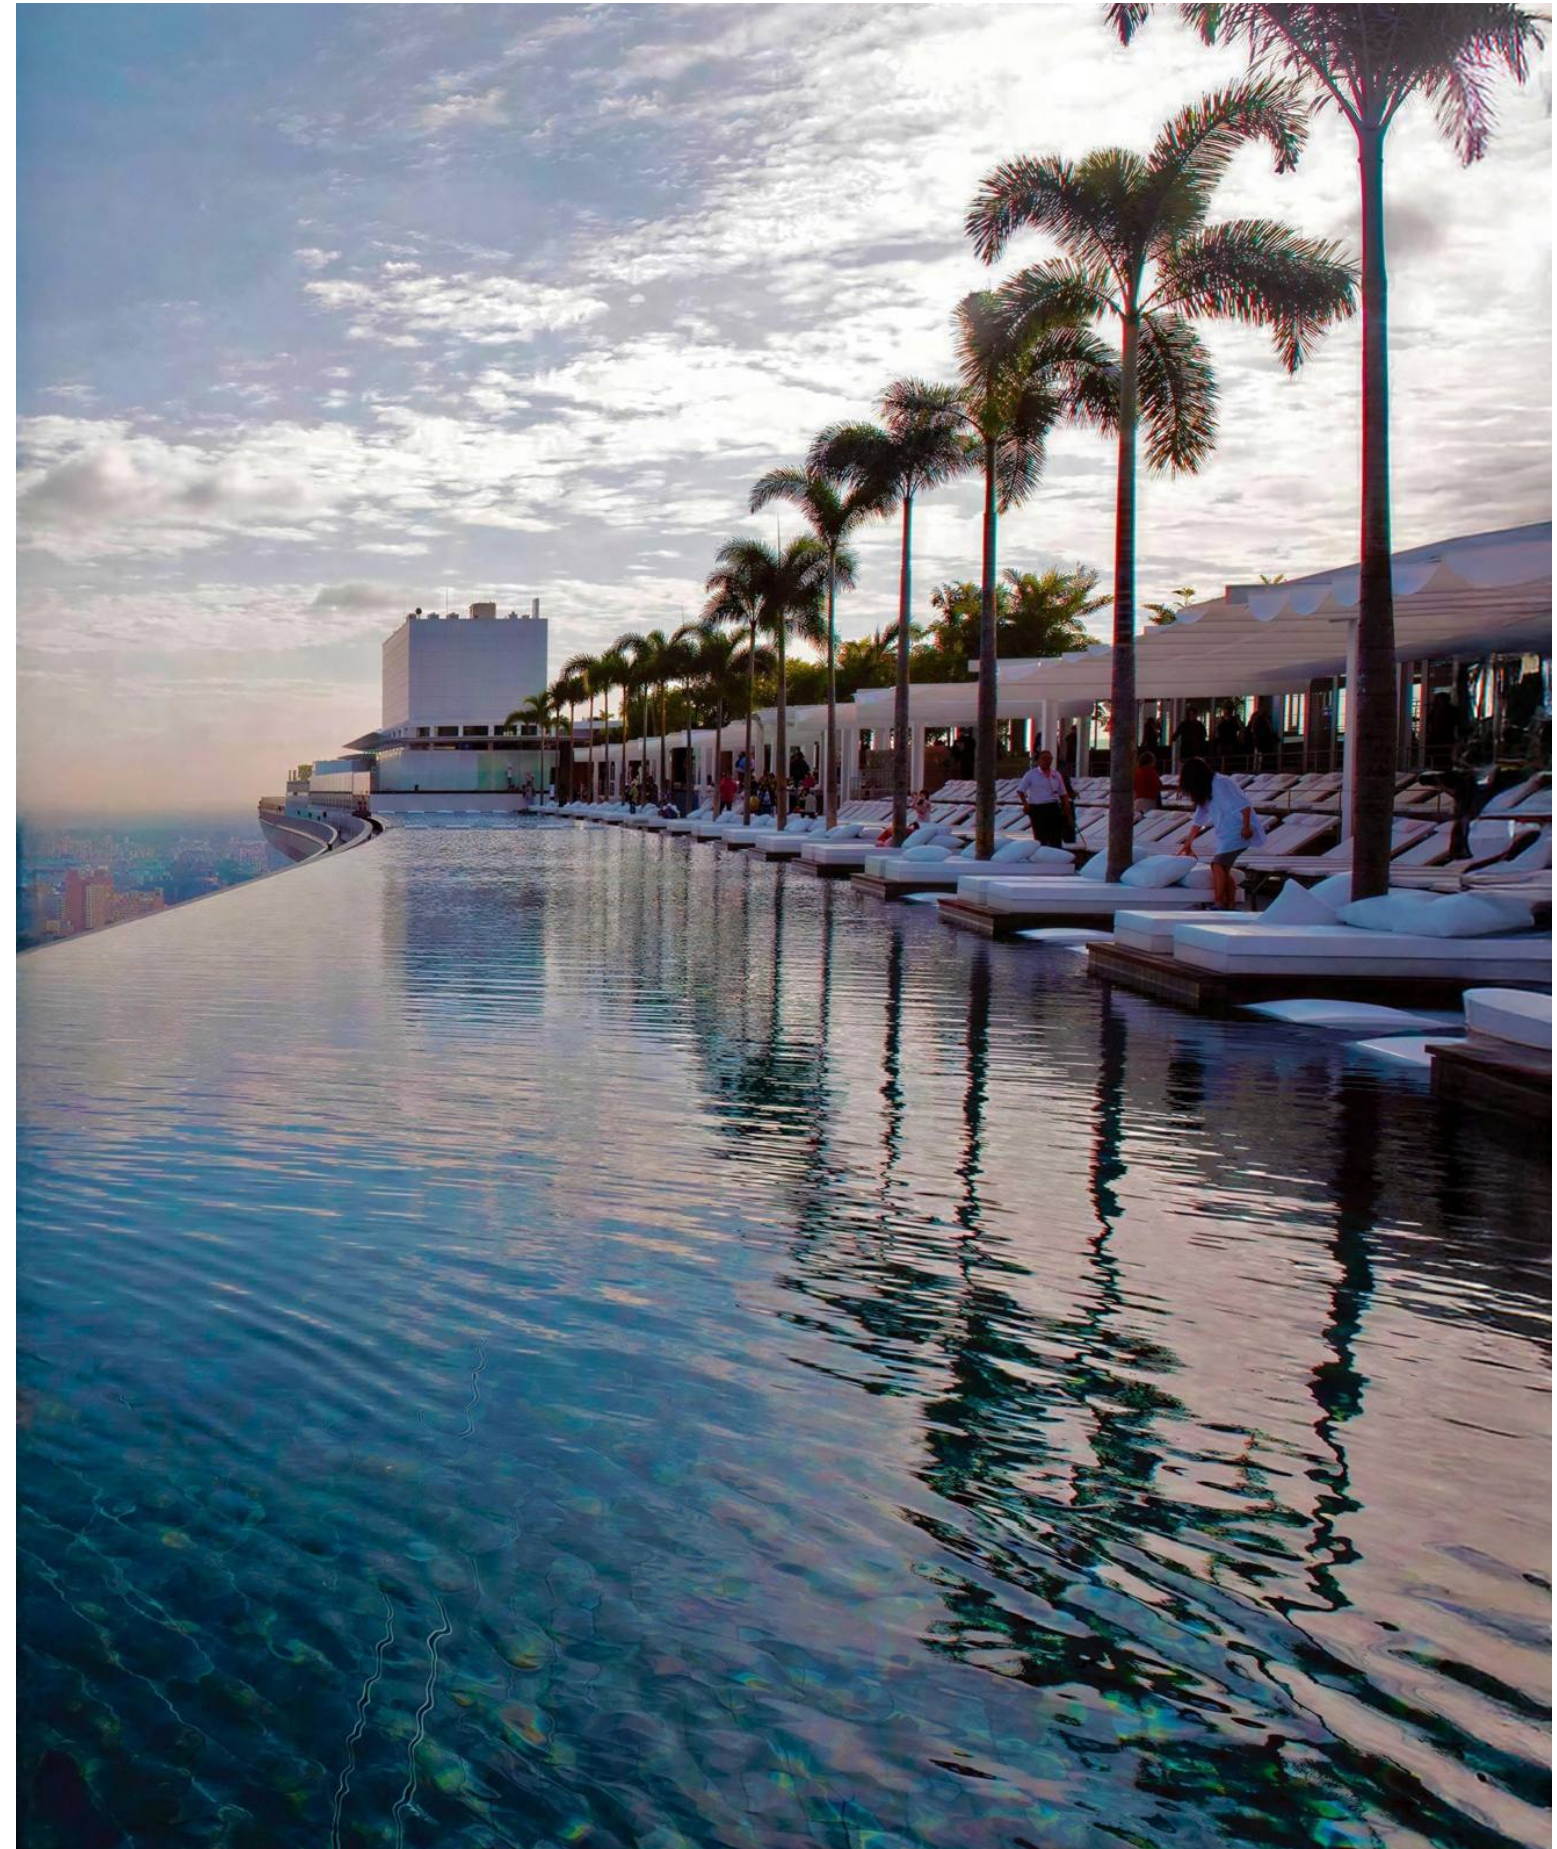

OCEAN LOUNGE

The pool deck at ME by Meliá was designed as a key social area within the hotel, combining open-air relaxation with a strong visual connection to the surrounding views. The space creates a resort-style experience where guests can lounge, gather, and enjoy the atmosphere throughout the day.

Seating zones, shaded areas, and poolside layouts were planned to support different guest uses without making the space feel crowded. The result is an outdoor environment that feels polished, comfortable, and aligned with the bold lifestyle identity of the ME by Meliá brand.

POOL DECK

The guest suite at ME by Meliá was designed to feel refined, intimate, and visually connected to the hotel's bold lifestyle identity. Custom millwork, layered textures, warm lighting, and carefully selected furnishings create a cohesive room experience that feels both comfortable and elevated, while giving guests a private space to relax within the energy of the property.

Every hospitality project begins with carefully selected materials that balance aesthetics, durability, and long-term performance. We offer an extensive range of flooring, wall finishes, veneers, metals, stone surfaces, and custom materials tailored to each brand's identity and operational requirements.

From luxury wood-look porcelain flooring and natural stone bathroom finishes to premium veneers, decorative wall panels, and custom metal details, every element is selected to create a cohesive guest experience. Our design team works closely with owners, operators, and designers to develop material palettes that enhance the visual character of the space while meeting the demanding standards of the hospitality industry.

Whether creating a contemporary resort, boutique hotel, or luxury residence, we provide fully customized finish packages that combine elegance, functionality, and lasting quality.

In recognition of the work Ted Piaton and his team conducted at our ME resort property in Cancun, Mexico, I would like to provide this letter of reference to anyone interested in pursuing a relationship with Mr. Piaton and his partnership with ItalDesign Group, Miami, Florida.

From conceptualizing our requirements to delivery of the end product, Ted was hands on. He knows his business and helped us transform our public spaces including the lobby/atrium restaurants and FFE into an exceptional space, exceeding our expectations.

The ability and expertise Ted possesses to visualize and deliver unusually well-made furnishings in an offshore environment and climate has qualified himself and his team a firm position as a preferred vendor and partner for our project

Any further questions, please feel free to contact me directly.

Respectfully,

A handwritten signature in black ink, appearing to read 'Cristian Castillo'.

Cristian Castillo – Beltran
Asset Manager
ME Cancun

Conrad Fort Lauderdale Beach is a luxury oceanfront destination that combines contemporary architecture, sophisticated interiors, and world-class hospitality. Located on Florida's iconic coastline, the property offers an elevated guest experience through thoughtfully designed public spaces, premium accommodations, and exceptional resort amenities.

As part of the project team, Ital Design Group and ESTIA contributed comprehensive hospitality interior solutions, supporting the development of guest areas, lounges, restaurants, and amenity spaces. Through careful coordination of design, materials, furnishings, and finishes, the project reflects the refined elegance and operational excellence associated with the Conrad brand.

The result is a hospitality environment that seamlessly blends luxury, comfort, and functionality while maximizing the property's spectacular waterfront setting.

LOBBY

LIBRARY

The event lobby and pre-function areas at Conrad Fort Lauderdale Beach were designed to support the natural flow of guests before and after meetings, events, and social gatherings. The layout creates a welcoming transition space where guests can gather, wait, and connect without feeling disconnected from the main hospitality experience.

Soft seating, warm finishes, and a calm material palette help the area feel refined and comfortable while still serving the practical needs of an event-focused environment. The result is a polished space that supports both guest comfort and the sophisticated character of the Conrad brand.

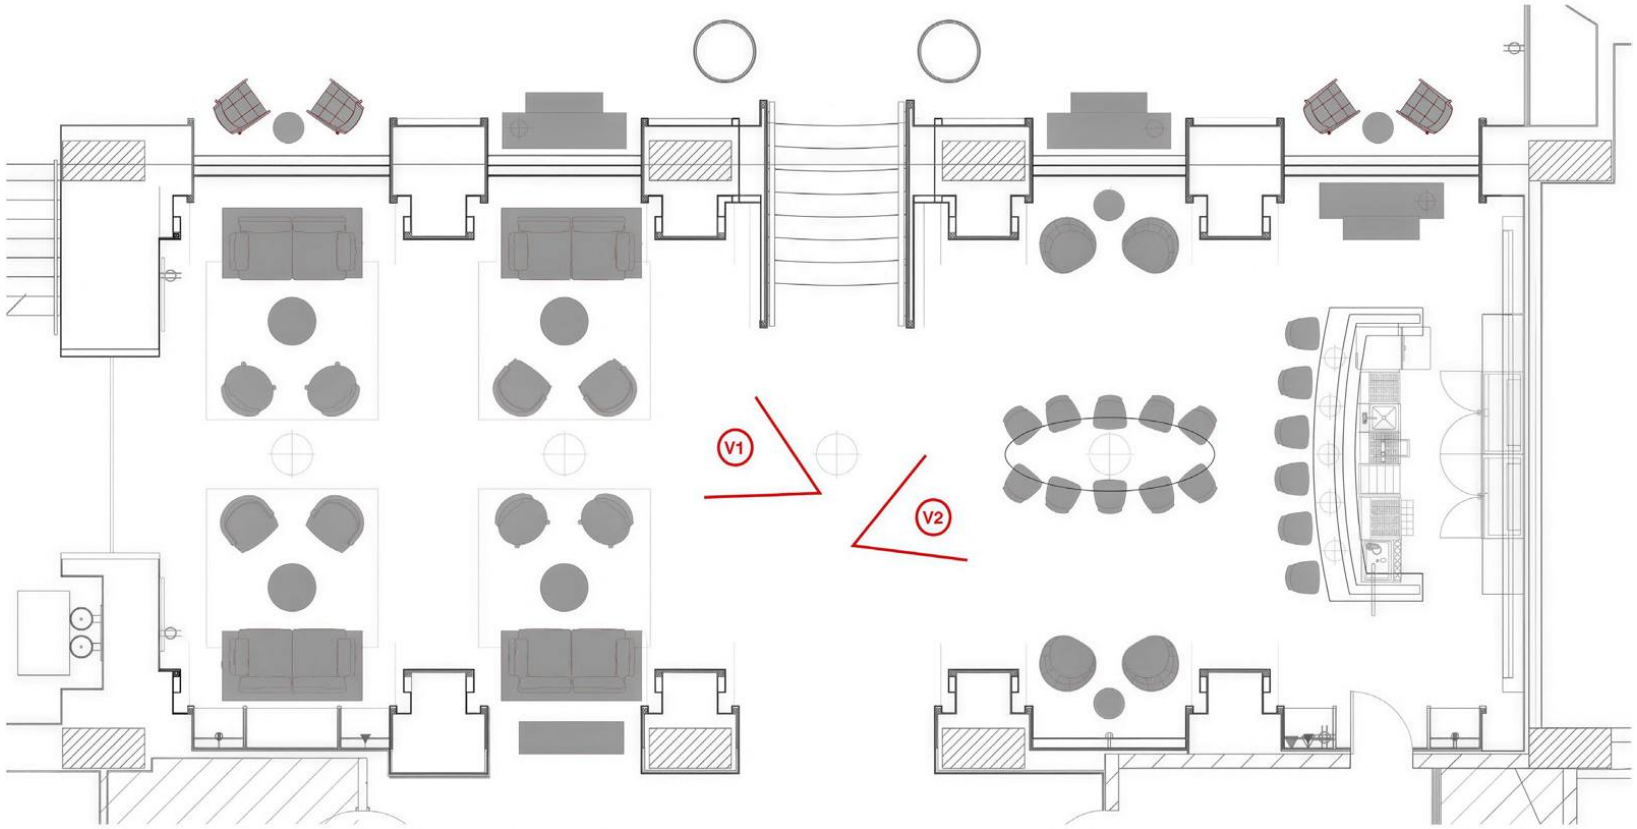

EVENT LOBBY

The lobby lounge at Conrad Fort Lauderdale Beach was designed as a refined gathering area that connects the hotel's arrival experience with its social and hospitality spaces. The floor plan shown on the top right highlights the planning behind the space, including the relationship between seating areas, circulation paths, and adjacent hotel functions. This layout helps show how the lounge was organized to feel open and accessible while still creating defined areas for guests to sit, meet, and relax.

The two views shown on the page present the space from different perspectives, offering a clearer understanding of both the overall atmosphere and the detailed interior execution. One view emphasizes the lounge's connection to the surrounding architecture and guest flow, while the other focuses more closely on the seating arrangement, finishes, lighting, and warm material palette. Together, they show how the design balances comfort, function, and the polished character of the Conrad brand.

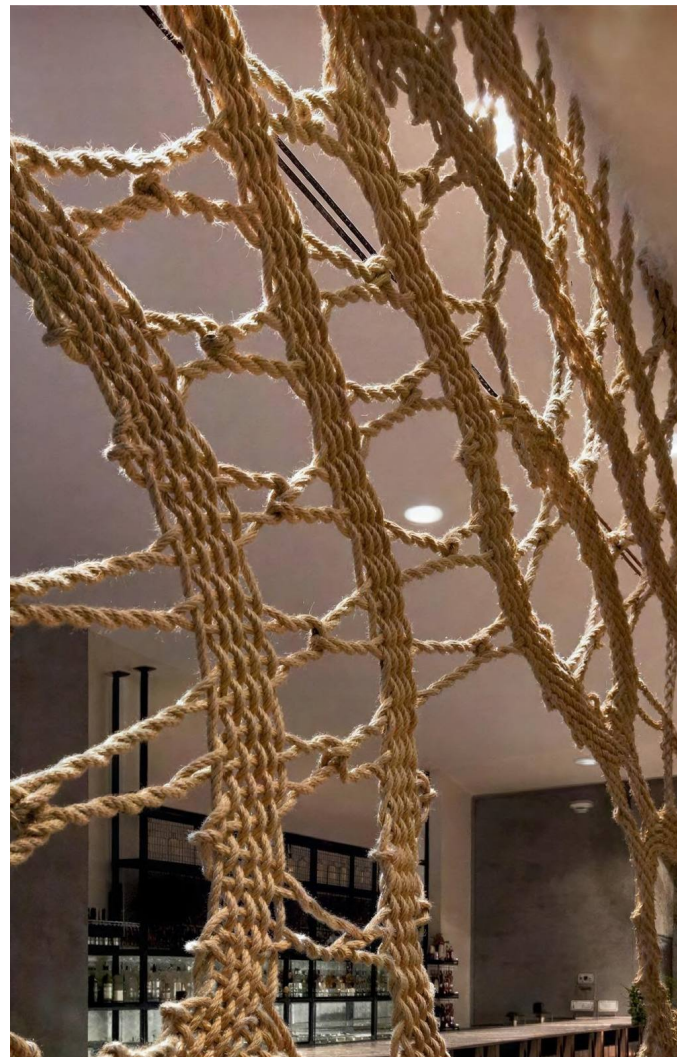

LOUNGE AREA

Brezza Restaurant at Conrad Fort Lauderdale Beach was created as a refined dining space with a strong connection to the hotel's coastal setting. Warm materials, comfortable seating, and soft architectural details give the restaurant a calm, polished atmosphere suited for both relaxed meals and elevated hospitality.

The space brings together dining, comfort, and brand experience in a way that feels natural within the property. Its material palette, lighting, and seating arrangement create a welcoming restaurant environment that supports the sophisticated character of Conrad Fort Lauderdale Beach.

INTERAMERICAN ENGINEERING

Dear Ted:

We would like to express our sincerest gratitude for your excellent performance on the Conrad Hilton Hotel, 551 North Fort Lauderdale Beach Boulevard. You provided Millwork and all FF&E and coordination for approvals by the Interior Designer, Steven G. Interiors, and Conrad Hilton Architectural Design Executives, David Oswald and Lon Alperin. Your services in obtaining all the design approvals and furniture layout for all of the common spaces and units in the building, were instrumental to the completion of the Hotel. Your prices were competitive, yet cost effective and all work was completed in a timely manner. Your continued follow thru with any issues has made us consider Euro Design Group a market leader company for Hospitality. Your company's "Best Practices" has made such an impression on us that we would like to maintain business relationship in the future.

Thank you once again for your marvelous performance, your professional experience and organizational skills enabled the developer to quickly complete our project.

We are now planning another project within the next year, and I would like to contact you for your expertise on that project as well when the time draws closer.

Sincerely,

Jorge Lamadrid
Executive Project Manager
CFLB Group

REFERENCES

Our project references reflect the trust built through long-term collaboration, reliable execution, and consistent project delivery. Across hospitality, residential, and commercial environments, Ital Design Group International has supported clients with interior solutions that combine design quality, procurement coordination, and practical installation support.

These references highlight our ability to contribute to complex projects while maintaining attention to schedule, materials, and overall execution. From guest-facing hospitality spaces to large-scale residential and corporate interiors, our work demonstrates a commitment to quality, professionalism, and lasting client relationships.

SAMUEL & CO

To Whom It May Concern:

I have worked with Euro Design Group, Inc. for several years on various High Rise and Condominium projects. Euro Design Group, Inc.'s knowledge, design expertise and dedication to each project has enable us to complete all projects on or before our deadline. From start to finish, Euro Design Group has executed quality work while adhering to the tense schedules. Euro Design has that Can-Do attitude, is enthusiastic, conscientious and totally engaged in his business.

Overall, I can only speak very highly of Euro Design Group; they have been efficient, professional, organized, and a fantastic leader in this industry. Euro Design Group has my highest recommendation for any size project.

Best Regards,

Michael Samuel
President

Reference Letter for Mr. Ted Platon

Dear Sir or Madam:

I have been President and partner of Partners Management Group for over 10 years. PMG Has been a leading hospitality FFE/OSE Procurement Company with many of the leading hotels, restaurants, stadiums and clubs as clients.

We have successfully worked with you/ Euro Design Group and your related business entities on a number of our hospitality projects. These projects include but are not limited to the following.

- The Setai Hotel (5th Ave NYC,)
- Archer Hotel NYC
- Trump Ocean Club Panama
- Trump Soho Hotel and Condos NYC
- W Hotel Downtown NYC
- The Out Hotel NYC
- Casa Hotel NYC
- Aloft Hotel NYC

In our dealings I have found that you have offered best competitive pricing together with excellent quality of the items you have supplied to the above referenced as well as other projects we have completed.

I believe you will be an asset to any hospitality project which may elect to retain your services.

Sincerely

Steve Bolson

Client Recommendation and Project Testimonial
Ted Platon and Ital Design Group

June 2026

To Whom It May Concern:

I am pleased to recommend Ted Platon and Ital Design Group based on my direct experience working with Ted on two significant multi-million-dollar projects while serving as Chief Financial Officer of Camillo Companies, a leading Houston-based homebuilder, multifamily developer, and real estate company.

I first met Ted in 2008 and came to regard him as one of the industry's most knowledgeable resources on modern European design and emerging residential and commercial design trends.

Our first project was The Keegan at Mission Glen, a 408-unit multifamily community in Katy, Texas. We selected Ital Design Group to provide and install contemporary Italian kitchens and bathroom cabinetry throughout the development. During the COVID-19 supply-chain disruptions, Ted and his team delivered ahead of schedule, demonstrating exceptional planning, procurement, logistics management, and execution. The finished product remains a defining feature of the community.

The project's success led us to engage Ted on the complete renovation of our approximately 51,000-square-foot corporate headquarters in Houston. Ted served as both a strategic advisor and design partner, providing furniture, millwork, office systems, and workspace solutions. Despite ongoing industry-wide supply-chain challenges, his team again delivered ahead of schedule.

Ted's ability to combine design excellence with practical execution distinguishes him in the industry. Having worked with him on both projects, I recommend Ted Platon and Ital Design Group without hesitation to anyone seeking a trusted partner capable of delivering exceptional design and reliable project execution.

Sincerely,

George Trevino
Principal Advisor, Portfolio Pro Advisors
Former Chief Financial Officer, Camillo Companies
